Covid-19 figures

Public Health Wales has reported as of September 8 a further **150** new confirmed cases of coronavirus in Wales, bringing the total number of cases to **18,664**, the total number of cases for Powys as at September 8 stands at **407** although the figure is likely to be much higher.

Figures issued by the Office of National Statistics (ONS) on the number of deaths in Powys attributed, either wholly or in part to COVID-19, as at August 28 was 95 – 48 in care homes, 38 in hospital and nine at home – no increase on previous figure.

Since the commencement of the Test Trace and Protect (TTP) programme on the 1st of June and up to the end of the 8 September, we have identified 147 positive test results that are appropriate for Contact Tracing. These are so called "index cases". Those cases have all been successfully contact traced and this has led to the identification of 322 contacts to date. Appropriate self-isolation advice and guidance has been provided to all such contacts.
