Cost-of-living: Help with your utilities' bills!

All Powys households are to receive £400 towards their energy bills this winter, through an expansion of the UK Government's Energy Bills Support Scheme.

This grant will be deducted from what you owe by your energy supplier, over six months from October, if you are a direct debit or credit customer; or it will be applied to your electricity meter or paid via a voucher if you have pre-payment meters.

Households on a range of means tested benefits will also receive a payment of £650 this year, made in two instalments; while pensioner households will receive an extra £300; and people getting disability benefits will receive a one-off payment of £150 from September.

- UK Government cost-of-living support:https://www.gov.uk/government/publications/cost-of-living-support/cost-of-living-support-factsheet-26-may-2022

You can also get help if you are struggling to pay your energy bills, or topping up your pre-payment meter, by speaking to your energy supplier. This could include help through the Warm Home Discount Scheme, which is due to reopen again in November.
